

Cable Tray Hole Sealing Solution

Overview

Multidiameter™, the Roxtec solution for adaptability to cables and pipes of different sizes, is a concept that has revolutionized the process of cable routing and pipe installation. It simplifies design, speeds up installation work and reduces the need for materials. It is the answer to your questions on how to seal a cable entry hole or how to seal a pipe entry hole in a more area efficient way than with cable entry glands?

With just one Roxtec entry seal for high cable density applications, you can replace more than 30 conventional cable glands and be sure to have a sealed cable entry. You can even install the cable entry seal now and be sure to have spare. Using Roxtec cable and pipe entries with sealing blocks or sealing plugs – or sealing modules as we and most users call them – instead of cable entry plates is a good idea when working with anything from telecommunication cable entry sealing to sealing of service entrance cables bringing power to buildings and homes. One reason is the robustness of. Roxtec cable entry seals and pipe entry seals provide protection against a wide range of hazards. Typical examples, besides water, are fire, gas, smoke, dust, blast, vibration, and electromagnetic interference. They are also the perfect answer to any questions on how to seal a rodent entry. Roxtec offers entry seals that are certified by recognized. Are you looking for an efficient cable or pipe entry seal for a wall, floor, roof, enclosure or equipment?

Do you need a waterproof cable entry?...
