

## Distribution Box 411

### Overview

The box adopt brass conductive and flame retardant housing, the maximum withstand current is 100A. With its sturdy construction, it offers reliable protection and organization for your. Versatile Terminal Block Distribution Box: Our 411 Terminal Block Distribution Box is designed for electrical engineering power distribution. Featuring a 4-level design for single-phase use, this DIN rail terminal block allows for easy connection of multiple wires and cables. Engineered for demanding power distribution systems, it features a 500V high voltage capacity and a rated current of 125A. This page provides complete and verified information for part number 0521-411-TE, NSN 6110-01-615-8428 You'll find detailed technical specifications, product attributes, condition classification, and real-time stock availability. com is protected by the platform. FREE delivery April 16 - 28.
