

Gigabit PoE Switch Gigabit Fiber Port Connection Method

Overview

The FiberPoE provides Gigabit bi-directional data transport between twisted-pair Ethernet cable and fiber optic cable, and injects DC power to the Ethernet cable for passive PoE. The FiberPoE is a low-cost solution for outdoor deployments that require long-distance runs to reach the PoE device. PoE is ideal for indoor or. PoE switch with 26*10/100/1000M RJ45 ports and 1*1000M uplink SFP fiber port. Ports 1-24 can support the PoE+ standard. Affordable and easy-to-deploy, these smart-managed, fixed-configuration Gigabit switches are designed for the today bandwidth-heavy applications.
