

How many layers does Huijue s core switch have

Overview

High-performance layer 3 switches with up to 100 GbE uplinks for large-scale networks, featuring industry-standard integration, role-based administration, and cloud management for streamlined operations. Positioned perfectly as an Aggregation Switch or Core Switch, the S6730-H delivers scalability, security, and cost-effectiveness for modern digital. Aggregation switch for small and medium-sized campus networks, with 8 x 1GE/10GE SFP+ uplink ports for high-speed data transmission; 24 x 1GE SFP ports (including 8 x combo ports), providing high-speed network experience for long-distance services. Core switch for small and medium-sized enterprise. used as a core or aggregation switch on large- and medium-sized networks. □ The switch supports user-defined traffic forwarding modes, forwarding behaviors, and search algorithms. □ The switch has a built-in high-speed and flexible processor chip designed specifically for Ethernet. With AC line card, it supports management of maximum 2560 APs. Simply put, it's the kingpin that keeps your network humming. You may also want to know: Can a Nintendo Switch Play DS Games?
