

How much does a buried optical cable locator cost

Overview

When you're budgeting for underground utility locators, you'll find prices vary widely – from a few hundred dollars for basic tools to well over \$6,000 for advanced systems. The cost depends on the technology, features, and brand you need. We've put together this pricing guide to break down what to. This can help you to find any type of subsurface utility such as buried fiber optic cables, electrical wires, storm drains, gas lines, sewer and water pipes, and many others. Radiodetection Standard Sonde (33 kHz) The Radiodetection Standard Sonde (33 kHz) is a compact, self-contained transmitter designed for locating non-conductive underground utilities such as pipes and ducting. This field is for validation purposes and should. Pay \$32.95 after \$25 OFF your total qualifying purchase upon opening a new card. Receive an email when this item is back in stock.
