Blanking Panels and ASHRAE: Data Centre Best Practices

Learn why ASHRAE guidelines recommend blanking panels in every server rack. See how proper panel placement supports thermal compliance and reduces cooling overhead.

Sealing the Rack: How and Why You Need to Do It

After properly managing the open area of the horizontal plane of the raised floor (the 1st R), the next step is properly seal the rack, which includes closing all open space of the vertical plane ...

Sealing Server Rack Gaps: A Simple Way to Cut Energy Costs

Learn how sealing server rack gaps improves airflow, reduces cooling energy costs, and boosts efficiency with simple, cost-effective solutions.

PolarFlex™ Full Rack Easy Blanking Panel 48U

PolarFlex™ Full Rack Easy Blanking Panels are designed to seal empty racks and large unoccupied spaces in racks for data center computer server rooms.

Enclosure Openings, The Often Overlooked Holes in Data Centers

The Under Rack Panel is available in two lengths (27.5" and 31.5") and is customizable to seal a variety of gaps under the server rack. The tool-less application features a rigid PVC support frame, with a ...

Blanking Panels

Blanking panels (also known as filler panels or rack spacer blanks) are installed in server racks to maintain proper airflow. Using a rack without blanking panels results in improper cooling which can ...

Air Flow Seals For Gaps Around Servers and Racks

Strips can be used above or below containment panels, next to rack rails, under server cabinets or in gaps in raised flooring. Filling gaps significantly improves cooling efficiency by preventing bypass ...

Data Centers | Brush Seals & Grommets

Combining our experience in applying strip brush to a range of sealing applications and our XtraSeal technology, brush seals can substantially reduce data center energy consumption. Click the arrows ...

Blanking Panels

Blanking panels are the most simple and cost effective method for improving air flow efficiency in data center server racks. The use of blanking panels to fill unused “U” positions in rack or enclosure can ...

Best Blank Panels for Server Racks to Maximize Airflow and Cleanliness

Blanking panels, or filler panels, help seal unused rack space to improve airflow, reduce dust intrusion, and keep cable management tidy. This guide highlights five top-rated options ...
