

Madagascar promotes cable trays

Overview

In Antananarivo, Colas and POMA are building Madagascar's first cable transport system: 8. In a large city marked by rugged terrain and dense urbanization, cable transport is an agile alternative to heavy infrastructure, capable of. On 21 June 2024, Madagascan President Andry Rajoelina inaugurated the first section of the Antananarivo cable car, marking a crucial milestone in the history of urban transport in the capital. This ambitious project aims to reduce traffic congestion and offer an environmentally-friendly alternative. We, one of the well-known Cable Trays Manufacturers in Madagascar, offer top-notch trays that keep your electrical system organized and protected. Our durable, high-quality trays come in various sizes and styles to fit any project, big or small. Moreover, our focus on maintaining high quality. In Madagascar, the cable car project in the capital Antananarivo has obtained a permit from the National Office for the Environment (ONE). The infrastructure, which should relieve congestion in the archipelago's main city, has provoked controversy among local residents and environmentalists. Re-elected last year amid controversy, he hailed the gondola as a sustainable transport solution for the city's swelling population.
