

Supply of power distribution box in front of the stage

Overview

For a safe and convenient means of supplying access to temporary power to theaters, convention centers, studios, theme parks and recreational facilities, consider the PowerGATE™ Company Switch event power distribution b. For a safe and convenient means of supplying access to temporary power to theaters, convention centers, studios, theme parks and recreational facilities, consider the PowerGATE™ Company Switch event power distribution box. This space saving enclosure houses connections protected by a 100% rated electronic trip main breaker. Company Switches are avai. Made from a thermoplastic resin premold to create a bond between the cable and connector, the EverGrip® Molded 19-Pin Multi-Conductor Extension cable assembly offers exceptional flexibility and durability ideal for studio lighting applications. This cable assembly is available in 12, 14 and 16 AWG to meet the specific requirements of the motion pict. Fed from a larger power source, this compact production and concert power distribution unit merges the power functions of a studio/location “lunch box” with the data functions of an opto-splitter, eliminating the need for two separate boxes. A 4-port USB Type A receptacle expands the range of devices that may be powered by LOpSter Trap™. Paired wit. Find the finest brands of wiring devices for your repairs and installations at Lex™, like 19-Pin devices, Neutrik powerCON® and Lex-Loc™ devices, NEMA locking and Cam Type devices, stage pin devices and more. For the only product that can control LEDs, incandescent lights and 220V moving lights in a single panel, look no further than the PCS Trio™ dimmer system. This entertainment power distribution product puts power for a full range of lighting, audio and video in your control with one single system. Its state-of-the-art control allows for easy integr.
