

UK Base Station Energy Solutions 100kWh Solution

Overview

The modular storage solution can scale from 100kWh to 3MWh, allowing the system's capacity to evolve as the project grows, offering flexibility in managing both capacity and budget. The system can be configured with well-known inverters such as Deye or industrial-grade PCS. EnSmart's Smart ESS 60/100 is an All-in-one compact ESS designed for small C&I loads. The system integrates Battery, BMS PCS, HVAC, fire extinguishing system and EMS systems. All components for battery storage, system operation and grid connection are pre-assembled for a plug and play use. It can. Marine is Energy Solutions' longest established market area, since 1996 we have been working with leading OEM boatbuilders, superyacht owners, boat yards and individual sailing and motor yachts. Constant output on 1000kwh units are 500kw. Equipped with a robust lithium battery backup, this system is ideally suited for various settings including factories, farms, hospitals. This solution uses a rack-mounted battery paired with PCS (Power Conversion System) to form a flexible and scalable energy storage solution, which can provide different capacity configurations according to specific needs.
