

Why can't I peel off the white residue from the pigtail fiber

Overview

The solvents loosen up the dried up residue, allowing you to wipe it off. Peanut butter is an old trick used by veteran detailers, the vegetable oil in the peanut butter has a very slight dissolving effect on. Excessive heat can cause the compound to dry out and make it harder to wipe off. Use a quick detailer or isopropyl alcohol mixed 50/50 with distilled water. Can get both of those at your local pharmacy cheap. And make sure you're. Wiping it off is always an option when the residue is fresh, but that might not be enough to prevent the white haze from showing up later. Key steps. A good Paint Rep should be an expert at looking at the process being used with THEIR product line and be able to troubleshoot if there are any problems and if there are problems leading to soft paint - where the process can be adjusted or tweaked.
