

## World's No 1 Carrier-Grade Router

### Overview

The Cisco® CRS-1 Carrier Routing System is the industry's only carrier router offering continuous system operation, unprecedented service flexibility, and system longevity. The Ericsson Cradlepoint R980 is a ruggedized, secure appliance and router that broadens access to the increased speed and performance of 5G to support advanced applications and critical communications. 17, 2023 (GLOBE NEWSWIRE) -- Broadcom Inc. (NASDAQ: AVGO), today announced the immediate availability of Qumran3D, the next generation of the StrataDNX family of single chip routers. Qumran3D raises the bar for carrier and cloud operator solutions by delivering. Nokia's coherent routing solutions make IPoDWDM a reality: From 100G to 800G ZR/ZR+ and beyond, across vendors, with the operational simplicity your teams really need. This is how telecommunication providers future-proof their IP and optical networks without starting over. You've heard the pitch: Router & Carrier Ethernet product line covers the backbone, metro, and mobile backhaul networks. Large-capacity backbone networks that are highly scalable and reliable work together with smart, minimalistic, and scalable metro and mobile backhaul networks to realize future-proof networks that can.

Carrier Routing System

CRS-1 is the first generation of Carrier Routing System launched in 2004. This replaced the Cisco 12000 routers which were used as core routers.

Adtran's SDG router portfolio receives FCC conditional approval ...

Adtran today announced that its service delivery gateway (SDG) carrier-grade router portfolio has received conditional approval from the FCC's Public Safety and Homeland Security ...

Carrier Routing System

Cisco Systems has announced the addition of a new product to its existing CRS family, the Carrier Routing System X, or CRS-X (C-R-S-Ten), which is expected to be 10 times faster than the first CRS model (CRS-1) the company offered, back in 2004. CRS-X is said to be a 400 Gbit/s per slot system and is backward compatible with the previous generation HW. At the time of launch, CRS-X family has three different flavors of physical interface card (40x10GE, 4x100GE and 2x100GE-Flex-40) apart from the i...

Enterprise Routers | Huawei Enterprise

Designed for the cloud era, this router offers easy deployment, simplified O& M, high performance, and strong reliability, helping enterprises quickly access various networks.

Coherent Routing

Nokia Coherent Routing is designed to cross that gap: coherent optics hosted in carrier-grade routers, integrated with optical transport architectures, and coordinated through cross-domain operational ...
